I thank the author for this revised version. I will gladly write a recommendation for this article once some few remaining (minor) issues are addressed:

Dear editor,

Thanks for your editorial work on this manuscript.
Best regards,
Luis Castañeda

- Line 247: change to "linear mixed model". **Done**
- Line 329-331: Clarify that this text refers to a different, additional analysis. **Clarification done.**
- Lines 334-335: This interaction is not seen in Table S5, right? **This is correct. Results of the analysis was edited.**
- Line 349: Correct to "starvation resistance". **Done.**
